## LADY NADA

CRYSTAL VIBRATIONAL  
SPRAY

SACRED ROSE WATER  
MADE WITH LOVE FOR  
HIGHER HEART  
ACTIVATION

Lady Nada is a Divine Lady Master who embodies the feminine Christ qualities and overlights us with such beautiful nurturing qualities and she fills our cup with love, kindness, forgiveness and innocence. This Divine Rose Quartz Crystal Water has the healing vibration of the Rose Quartz, which is for love, nurturance and forgiveness. It also contains Clear Quartz crystal vibration, which is for clarity, amplification and alignment. These together create a beautiful, yet strong combination of energy which will assist one to open their heart with gentleness and grace, so as they can connect with their higher heart. Once this connection is made people start experiencing the best things on their path as it strengthens the meaning of your higher purpose.

This Sacred Water is scented with Pure Rose oil for connecting with the Divine Feminine and Mother energies. This spray is harmless, suits all people and is also lovely for children.

## ST. GERMAIN'S ELIXIR AMETHYST CRYSTAL WATER

These Sacred Healing drops will purify all discordant energies around the Heart Flame. This will then allow a clear connection to be made between you and your heart pathways. Only then will you find it easy to live your divine purpose to express your gifts to the world.

The Amethyst has profound spiritual healing effects and as they are for internal use, they will clear away any unwanted or discordant energies around the body and around the heart. So far they have brought remarkable results to people, saying they have healed family wounds in where nothing else has worked. They have brought miraculous benefits to all disharmonious circumstances.

St. Germain impressed me to use the number 4 with the dosages as the Maltese Cross has 4 points, representing the balance within the heart, the earth, the 4 directions and with the 4 Archangels.

Take 4 drops, for 4 days on, then nothing for the next 4 days so no drops: then 4 drops for 4 days again, 4 days off and so on until the drops run out, usually it will take around 4 weeks all together.

If needed again, wait another 4 weeks or 4 months depending on how urgent the requirement. They are safe to use as they are only made of the mineral Amethyst, like wearing an amethyst crystal internally.

St Germain blesses your  
divine sacred heart flame

## ST GERMAIN'S SACRED AMETHYST SPRAY

St. Germain's sacred Aura & Room spray is great for space clearing. It is made from natural spring water with an Amethyst crystal key and generator emerged. It cleanses any room before and after healing and spiritual work and is great for ones auric field. People will find that it not only cleanses and transmutes discordant energies but it also will envelope one in the purple colour of the violet flame for at least 12 hours and seal you in a field of protection and love.

It is also scented with pure lavender oil, which is a calming antiseptic fragrance that assists with this work. Lavender has wonderful healing properties as it helps the body to relax and de-stress. When we relax, we open up the spiritual dimensions, therefore become more available to the Angels and Masters so they can work with us.

St. Germain impressed to make this for humanity as people are now working with higher energies and practicing space clearings, healings of all modalities everywhere, which is wonderful to see.

We are all rising in vibration as we clear and heal ourselves and this beautiful planet with love and light as intended in part of the Great Divine Plan. This is a wonderful tool to assist you in that!

Enjoy and use whenever desired.
